## **DETAILED ACTION**

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Claim 12 defines over the Wing reference because it neither shows "wherein the electromagnetic driving part comprises: at least one permanent magnet". A reasonable combination with the prior art teaching adding a permanent magnet to the device of Wing is neither found nor fairly suggested.

Claim 12 defines over the motor of D'Ewart, Jr. as the device does not disclose, "Wherein the electromagnet driving part comprises: ... at least one coil surrounding the moving part" as power coil 277 and 279 is attached to and in fact is the moving part. It cannot surround the moving part if it is the moving part. Thus these additional limitations define over the art of record. Finally, a reasonable combination of the prior art to meet the limitations recited in claim 12 is neither found nor fairly suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
